

## Stat 216 Calendar of Topics and Due Dates – Spring 2026

*\*All assignments, labs, and exit tickets should be completed in Gradescope*

### Additional due dates:

- Video notes are due at the beginning of class the first day of each module.

| Week | Date     | Activity/Lab completed in class                                     | Complete prior to class: readings in the online textbook & Videos & Video notes                                          | Homework: Labs (due at 9pm), Assignments (due at 9pm)           |
|------|----------|---------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------|
| 1    | Wed 1/14 | Course Overview                                                     |                                                                                                                          |                                                                 |
|      | Fri 1/16 | Activity 1: Sampling Methods                                        |                                                                                                                          |                                                                 |
| 2    | Mon 1/19 | No class – MLK Jr Day                                               |                                                                                                                          |                                                                 |
|      | Wed 1/21 | Activity 2: American Indian Address                                 | §1.1; §1.2; §1.3; §2.1, Ch 23<br>1.2.1 and 1.2.2, 2.1, Chapter 23<br>P. 4 – 8, P. 24 - 27                                | Module 1 and 2<br>Video/Reading Quiz (Optional)<br>Assignment 1 |
|      | Fri 1/23 | Activity 3: Probability Studies                                     |                                                                                                                          |                                                                 |
| 3    | Mon 1/26 | Activity 4: Helper-Hinderer Part 1                                  | Ch 3; Ch 4; Ch 5; Ch 9; Ch 10; §14.1; §14.2<br>4.1_OneProp, 4.2_OneProp, Chapter 9, 14.1, Chapter 10, 14.2<br>P. 38 - 48 | Module 3<br>Video/Reading Quiz (Optional)<br>Assignment 2       |
|      | Wed 1/28 | Activity 5: Helper-Hinderer (continued)                             |                                                                                                                          |                                                                 |
|      | Fri 1/30 | Activity 6: Helper-Hinderer – Simulation-based Confidence Intervals |                                                                                                                          |                                                                 |
| 4    | Mon 2/2  | Activity 7: Handedness of Male Boxers                               | Ch 11; §14.3; §14.4<br>Chapter 11, 14.3 Theory Tests, 14.4 Theory Intervals<br>P. 70 - 76                                | Module 4<br>Video/Reading Quiz (Optional)<br>Assignment 3       |
|      | Wed 2/4  | Activity 8: Confidence intervals and what confidence means          |                                                                                                                          |                                                                 |
|      | Fri 2/6  | Module 3 and 4 Lab                                                  |                                                                                                                          | Module 3 and 4 Lab                                              |
| 5    | Mon 2/9  | Exam 1 Review                                                       |                                                                                                                          | Assignment 4                                                    |

|           |            |                                                                                |                                                                                                                                                                           |                                                                  |
